FOCUS

- SOFTWARE AUTOMATION
- LINUX ADMINISTRATION
- DEVOPS
- PROJECT MANAGEMENT
- GENERATIVE AI
- UI/UX DESIGNING

COMPETENCIES

- Platform Engineering: Kubernetes, Docker, Terraform, CI/CD.
- Automation & AI: Python, Apache Airflow, Generative AI Integration.
- Business Strategy: Market Research, Product Lifecycle Management, Lean Six Sigma.

HONORS

- Awards & Leadership: Best President (2022-23), District Chair, and 3x DRR Special Recognition for leading 120+ community projects.
- Certifications & Fitness: BEC Vantage (First Class); 3x Triathlon & Obstacle race finisher; organizer of virtual fitness programs.

IMPACT

- Rotaract Leadership (2020-2026): District Chair (Events), Zone Representative (ZRR), Vice President, Joint Secretary and Club President.
- Prior Leadership: School Pupil Leader (2017-18).

VITALITY

- Triathlete (Running, Cycling, Endurance Swimming) | Weightlifting | Trekking | Badminton.

PUBLICATIONS

- Smart Cane for Visually Impaired - IJARESM

COMMUNICATION

- English/Tamil/Malayalam/Hindi

EXPERIENCE

- GenAI & Reliability: Architected an AI portal and chatbot to automate technical support and documentation, boosting system reliability.
- Data Orchestration: Managed real-time data sync across diverse groups via Apache Airflow on Kubernetes for automotive lifecycles.
- Product Support: Resolved complex L2 escalations for global portfolios; automated user-sync workflows to cut manual effort by 90%.
- Leadership: Earned Champ-Skill Recognition (2026) and multiple honors for technical blogging and hosting major corporate events.

PROFILE

DevOps Engineer at Bosch with an MBA in Marketing, specializing in AI-driven automation, cloud-native infrastructure, and strategic platform engineering. Proven leader in community impact through 6+ years of Rotaract leadership.

ACADEMICS

MBA 2024 - Present

Manipal Academy Of Higher Education

CGPA: 9.3

B.Tech IT (2019 - 2023)

Coimbatore Institute Of Technology

CGPA: 8.8

Class XII (CBSE) 2018 - 2019

Vidhya Niketan Public School

Percentage: 80%

Class X (CBSE) 2016- 2017

Vidhya Niketan Public School- Coimbatore

CGPA: 9.2

SOLUTIONS

- Smart Mobility (AI & IoT): Engineered a sensor-integrated navigation aid for the visually impaired featuring real-time obstacle detection and haptic feedback.
- Medical Diagnostics (AI): Developed deep-learning architectures for automated skin disease classification and multi-category object recognition.
- Systems Security: Built a malware detection engine using Random Forest algorithms and an Arduino-based network for real-time pollution monitoring.
- Supply Chain Web App: Architected an end-to-end platform for digitized registration and automated processing of dairy product distribution.

PRACTICUM

- Software Developer Intern | NobleServe Systems (6 Mos): Developed full-stack applications and optimized code for enterprise-level software deployment.
- AI Intern | OneStop AI (IIT Kharagpur): Researched and implemented machine learning models, focusing on data preprocessing and algorithm efficiency.
- Technical & PR Intern | QuadraSystems & Hope Org: Executed IT solutions at QuadraSystems and managed public relations/outreach strategies for Hope Organization

CERTIFICATIONS

- Adv. Kubernetes | LLMs | Vector DBs | Jenkins | Lean Six Sigma (Yellow) | Google Digital Marketing | Python | Java | SQL | BEC Vantage (1st Class)
